OBJECTIVE

An engineering enthusiast with strong coding and problem-solving skills seeking a challenging career with eagerness to learn, willingness to contribute, and desire to gain valuable experience with a progressive organization that provides an opportunity to capitalize on my technical skills and abilities.

EDUCATION

Technocrats Institute of Technology   Bhopal, Madhya Pradesh
Bachelor of Technology in Information Technology   *Sep 2019 – Jul 2023*
- CGPA: **8.85/10.0**

Saraswati Shishu Mandir School   Sagar, Madhya Pradesh
HSC: Maths Science   *July 2018 – May 2019*
- Marks: **86/100**

TECHNICAL SKILLS

- **Frontend Technologies:** HTML, CSS, JavaScript, Bootstrap, React Js
- **Programming Languages:** Java, C, JavaScript, SQL
- **Frameworks/Libraries/Technologies:** Spring Boot, Spring, Hibernate, React Js, Thymeleaf, JSP, JDBC,Advance Java
- **Database Technologies:** SQL, PL/SQL, Oracle
- **Other Technologies/Tools:** RESTful APIs, Microservices, GIT

PROJECTS

Ride Together (Car-rental System)
- Developed a Car Rental Management System using HTML, CSS, and JavaScript for the frontend, with Spring Framework and Java for the backend, and Oracle SQL for database management.
- Simplified car rental process by automating the task and reducing errors.
- Implemented user registration and authentication for secure account management.
- Developed a dynamic search engine that allows users to find available vehicles based on location, date, and vehicle type.
- Increased customer satisfaction by providing a user-friendly platform for booking and managing car rentals.

Farmer Management System
- Developed a web application for efficient management of farmer information, allowing users to add, update, and delete farmer details.
- Implemented a user-friendly interface that facilitates easy navigation and data entry.
- Enabled quick access to farmer records, improving overall data management efficiency and supporting better decision-making.
- Increased the efficiency and accuracy of the banking operations by automating the tasks and reducing errors.
- Utilized technologies such as HTML, CSS, Thymeleaf, Java, Springboot, SQL, Oracle.
- Increased the efficiency and accuracy for managing farmer details by automating the tasks and reducing errors.

CERTIFICATION

Naresh I Technologies   Oct 2023 – Present
Java Full Stack Developer   *Hyderabad, Telangana*
